We will be having a series of **informal** discussion / workshop sessions on topics of interest to 'Hams'. The sessions will run for 30 Min. or so each throughout the day. We encourage anyone with expertise in, or interest in, a specific area to lead a discussion.

SDR radio, Digital radio, Antenna building, Handy gadgets, Mods to equipment, PC power supplies for ham ... You name it !

This is one time a year when we can share our talents, expertise and questions with others with the same passion

LETS USE IT!

A final topic list and schedule will be available at the event.

If interested in leading a discussion please contact: Dave Negrych — VE4NEG

Email: ve4neg@gmail.com Phone: Cell Ph: (306) 641-2311
